

Questions and Answers | Discernment Committee Survey Results

1. Why would the number one response to this question: “Describe a moment in our GHTC community's recent ministry which you recognize as one of success and fulfillment” be Red Door Ministry when so few people participate in it?

The question asks what parishioners see as a successful and fulfilling ministry rather than asking about one in which they participate. Since many parishioners are aware of the great work and growth of Red Door, they selected it as a success for Grace and Holy.

2. The Discernment Committee mentioned that it expects the rector candidates to go to the Grace and Holy website. Are we re-doing that?

Barb Dodd has been working on the website for some time now, and it compares very favorably to other websites. There is more to come. If you have not visited the website recently, we recommend that you do that.

3. The Vestry has selected Children, Youth and Families as an area of focus, but I didn't see anything about that in the survey results.

The vestry selected that as an important area, and it is within their purview to address this. The survey both asked about and has comments regarding this area, which we will provide to the Vestry for their consideration.

4. Why are the comments not published?

The Discernment Committee assured everyone that all survey responses would be confidential. Honoring that commitment, we have only provided aggregate data.
